

To Whom So Ever it May Concern.

I am Deepak Mukut - MD & founder of Soham Rockstar Entertainment had taken Sunroom Slim Line Series Windows from Italy for my Residence about 6 years back.

The Windows are working perfectly and are troublefree with most amazing quality of being Soundproof and smooth movement inspite of being large sized heavy panels.

We have also taken Flexalighting - Architectural Downlights from Italy from P3 and their performance is excellent and no failures.

Roopesh bhai - CEO of P3 has become family and now we have bought the adjacent residence and in that residence too we have ordered Sunroom Windows from P3.

I must say as a Film Producer, I have an eye on perfectionism and Sunroom Windows is one of the best Choice we made and that is why we repeated it again in our extended residence.

I compliment P3 & their team for an excellent job and in my 6 years of using Sunroom Windows, there has never been any issue or service call at all.
